Book 132 – Garage Theme Container House – Japan

2016

Valued Reader,

Following the incredible popularity of our digital book series – The Most Influential Shipping Container Homes Ever Built – we have decided to release a number of expanded titles for 2016 showcasing in greater detail some of the best in Container based Construction from around the World.

This **Booklet Number 132** in the series is free as an electronic download.

If you are interested in reviewing our first book or any others in the series please drop us an email, we would be happy to send you a copy for free.

As the World's leading educator in Container Home Construction we strive to bring our readers the very best in Container Home Design, Inspiration and Educational Resources.

If you have any questions about this booklet or our site in general please email me at victor@containerhome.info

Regards

Victor Wallace

Download 3D Container Home Design Software Here

3D Design Software

The screenshot displays the software's interface with a 3D rendering of a container home. The software window has a title bar 'ContainerHome3D 2.0' and a menu bar with options: 'File', 'Edit', 'View', 'Tools', 'Help'. Below the menu bar is a ribbon-style toolbar with icons for 'Move 3d object', 'Rotate 3d object', 'Delete 3d object', 'Object properties', 'Ungroup parts', 'Group parts', and 'Undo last'. A 'Properties' panel on the left shows 'Object Options - 1 Object Selected' with tabs for 'General', 'Rotate Object', and 'Brochure Type'. The 'General' tab includes 'Set Position' (X: ~3' 2", Y: ~11' 6", Z: ~14' 10") and 'Set Scale' (X: ~19' 11", Y: 9' 6", Z: 8' 0") fields, along with checkboxes for 'Lock Object', 'Collide in Walk Mode', 'Pickable Object', 'Shadows', and 'Always'. A callout bubble points to the ribbon toolbar: 'New Ribbon Control Style User Interface'. Another callout points to the 3D model: 'New Ultra High Detail Container Models includes 20' and 40' GP and HC Series'. A third callout points to the graphics: 'High Quality Real time 3D Graphics'. A fourth callout points to the software's templates: 'Built in Quick Start Templates - common 1, 2, and 3 Container Designs'. A man in a blue shirt and jeans is kneeling on the grass, pointing towards the software window. The background of the 3D scene shows a sunset sky, palm trees, and a lounge chair on a wooden deck.
